DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-9 and 12, drawn to a polymeric composition.

Group II, claim(s) 10, drawn to compounds.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The compounds of Group II may be used in a technically different manner than as the non-reactant additives of the Group I compositions. For example, the compounds of Group II may be used as a reactant component in the production of a synthetic resin.

3. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Species defined by the compound of formula 1 wherein:

A may be carbon, nitrogen, phosphorous, boron and silicon

B may be esters, thioesters, ethers, thioethers, ketones, secondary amines, tertiary amines, amides, imides, imines, azo, azoxy, urea, urethane, thiourethane, sulfonamide, mixtures of the above

Art Unit: 1714

B' may be carboxylic acid, sulfonic acid, alcohol, phenol, thiol, amine, acetamide, cyano, hydrazide

X may be hydrogen; alkyl; alkenyl; alkoxy; alkanoy;, alkylthio; alkylthioalkyl; alkylaryl; arylalkyl; alkylsulfinyl; alkoxyalkyl; alkylsulfonyl; alkoxycarbonyl; carboxylic acid; alkyl substituted with one or more of sulfonic acid, carboxylic acid, halogen, nitro, cyano, diazo, epoxy; aromatic ring compounds which may be substituted with nitrogen, sulfur, sulfonyl, sulfonyl, oxygen; aliphatic ring compounds which may be substituted with nitrogen, sulfur, sulfonyl, sulfonyl, oxygen

X' may be hydrogen; alkyl; alkenyl; alkoxy; alkanoy;, alkylthio; alkylthioalkyl; alkylaryl; arylalkyl; alkylsulfinyl; alkoxyalkyl; alkylsulfonyl; alkoxycarbonyl; carboxylic acid; alkyl substituted with one or more of sulfonic acid, carboxylic acid, halogen, nitro, cyano, diazo, epoxy; aromatic ring compounds which may be substituted with nitrogen, sulfur, sulfonyl, sulfonyl, oxygen; aliphatic ring compounds which may be substituted with nitrogen, sulfur, sulfonyl, sulfonyl, oxygen

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after

Art Unit: 1714

the election, applicant must indicate which are readable upon the elected species. MPEP

§ 809.02(a).

4. The claims are deemed to correspond to the species listed above in the following manner:

The following claim(s) are generic: 1-9 and 12.

5. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: The possible moieties described by substituents A, B, B', X and X' possess divergent functionalities and therefore different properties.

hydrogen; alkyl; alkenyl; alkoxy; alkanoyl; alkylthio; alkylthioalkyl; alkylaryl; arylalkyl; alkylsulfinyl; alkoxyalkyl; alkylsulfonyl; alkoxycarbonyl; carboxylic acid; alkyl substituted with one or more of sulfonic acid, carboxylic acid, halogen, nitro, cyano, diazo, epoxy; aromatic ring compounds which may be substituted with nitrogen, sulfur, sulfonyl, sulfonyl, oxygen; aliphatic ring compounds which may be substituted with nitrogen, sulfur, sulfonyl, sulfonyl, oxygen

6. During a telephone conversation with Tyler Stevenson on 1/27/2004 a provisional election was made with traverse to prosecute the invention of Group I, claims 1-9 and 12.

Affirmation of this election must be made by applicant in replying to this Office action. Claim 10 is withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

7. A subsequent telephone call was made to Tyler Stevenson on or around 4/6/2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1714

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

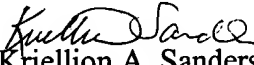

8. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
